Re: FL-4041

Dear Ms. Russo,

For some reason the records of our registered agent: Nevada Processing Center, Inc., 6490 Desert Inn Road Las Vegas, Nevada 89146

have not been updated to reflect our current operating address and telephone number in Houston, Texas. Our registered agent recently forwarded the attached correspondence from your office. As CEO of Helpeo, Inc., I wish to dispute our inclusion in Code 1 of your letter. We continue to perform research and development on our software related product line that is awaiting completion prior to market launch. Although we have not actively been trading, it would be detrimental to the existing stakeholders and staff incentive plans in place for the development team working on our core products.

I urge you on behalf of all HELPEO, Inc. shareholders to reconsider suspension of the company and update all records in accordance with the information provided in this letter. NPC will remain the registered agent for Helpeo, Inc and is apprised of my writing this letter to you.

Should you have questions or concerns, please call me at [REDACTED] or email Helpeo [REDACTED]

Thank you for your consideration,

John A. Zotos, CEO
